

University Diploma in Aviation Security Management

Why?

The importance of safety and security is at the heart of the aviation industry. Aviation security must seek to continuously develop and strengthen security measures due to ever-changing threats.

With the unprecedented introduction of security reforms and the constant emergence of new security trends over the last decade, it is imperative for current and potential aviation professionals to keep abreast of security innovations.

About the Programme

This programme is designed to provide in-depth understanding of key requirements and skills necessary to successfully manage security needs in the aviation industry. It includes security threats, controls, cargo security, passenger security, Intelligence, crisis management and post-incident recovery.

This industry-based course includes six units, with examination assessment and grading undertaken by Edith Cowan University (ECU).

The part time programme is relevant to working professionals who wish to fast track their career prospects.

The diploma is awarded by Edith Cowan University, which is located in Perth, Western Australia and attracts internationally recognized credit points for future courses.

About Edith Cowan University

ECU offers over 400 courses for more than 27,000 students at both undergraduate and postgraduate levels. Approximately 5,500 of these are international students originating from over 70 countries.
