PROJECT MANAGEMENT: PRACTICE & CERTIFICATION

YOUR VIRTUAL PROJECT MENTOR

This flexible online course was developed by experienced McGill instructors to fit your busy schedule. Learn essential project management concepts. Practice new skills. Focus on trouble spots. Learn at your own pace—anywhere, at any time.

- Practice with quizzes and case studies
- Download templates you can apply on the job
- Access the PMP practice exam
- Acquire 35 hours of project management education required for PMP Certification
- McGill is a PMI Registered Education Provider, and all course content is fully aligned with PMI's A Guide to the Project Management Body of Knowledge (PMBOK® Guide) Guide 5th edition

This course was fun and fast. I liked the on-line format because it's very helpful, easy to use and easy to follow. I'm using the practice exams to prepare for the PMP Certification exam, and I can do work on my own, rather than waiting for a specific time to attend an onsite class. It just makes sense.
